

IMPORTANT

Instructions for proper use of the spa

Keeping the water in the jacuzzi as clean as possible is in everybody's interest!

- Do not increase the water temperature above 37 ° C.
- Please take a shower to remove all skin products before use.
- The water level must be maintained.
- To retain the temperature, replace the cover when you are not in the jacuzzi.
- Use only the jet start-up and lights buttons - pressing other buttons could disrupt the filtration programming.
- We give you chlorine tablets: **Put 1 in the jacuzzi each evening after use**
- If it is windy please use the weather strap to keep the cover on the jacuzzi.

A spa is a place to relax !

A Jacuzzi is not a playground for children, NEVER leave children unsupervised!

Please do not use the jacuzzi if you are pregnant, are on medication for heart disease, or under 12 years old.

A ph balance test and any necessary treatment will be conducted during your stay by your manager.

Thank you for your understanding, enjoy!
