

Mont Baron by moonlight

General information

Distance: about 6km (round trip)

Difference in altitude: moderate

Duration: around 3-4 hours (at night)

Equipment: powerful headlamp with spare batteries, warm clothing (even in summer, it can be cold at altitude at night), sturdy hiking boots, hiking poles (optional), water and light snacks, topographical map or GPS (for navigation if necessary), camera

Start: Col de la Forclaz car park

Parking: at the starting point

The route

The night hike to Mont Baron begins at the Col de la Forclaz car park, around 15km from Annecy town centre.

The well-marked path climbs gradually through the forest.

Once at the summit of Mont Baron, a magnificent view of Lake Annecy and the surrounding mountains awaits those who have made it this far.

The hikers then begin the descent to the Mont Baron car park along the same path as on the outward journey.
